# Lava in talks with PE funds to raise ₹500-600 crore

To sell 10-15% stake; planned IPO pushed to FY27

GULVEEN AULAKH  
New Delhi, 21 August

Lava International, India's only home grown smartphone brand, is close to raising ₹500-600 crore from private equity investors via stake sale of 10-15 per cent, two people aware of the development said. The Noida-headquartered company's initial public offering(IPO), which was planned for FY 26 earlier, has now been pushed to financial year 2027, one of the people said.

"Talks are on with two Indian and one US-based private equity investor. Due diligence is going on, and it is likely to be concluded within next three to four months," the first person aware of the details said, asking not to be named as the discussions were not in public domain.

"An equity dilution of 10-15 per cent should take place. This can be considered as a pre-IPO fund raise," the second person said. As per equity dilution, at the lower end the company may well be valued in the range of ₹3,300 crore and ₹5,000 crore, while on the higher end the valuation could range between ₹4,000 crore and ₹6,000 crore.

Queries to Lava International sent last week did not elicit a response as of Thursday evening.

Lava International has managed to carve its own space in the Indian smartphone segment amid a slew of international brands, including Samsung, Oppo, Vivo and Apple, having taken up the majority market share.

Market watchers say the company has, in

## Capital calls

- Talks with PE investors to conclude within next few months
- Second fastest growing brand in smartphone market in April-June 2025 period
- May be valued in the range of ₹3,300 crore to ₹6,000 crore
- Firm is the fastest growing brand Y-o-Y in ₹10,000 segment
- Blaze, Storm and Agni series under ₹10,000 segment drives growth

fact, managed to increase its market share, especially in the under ₹10,000 segment, which most global brands have peeled away from.

"Lava is regaining share in the Indian smartphone market and was the fastest growing brand year-on-year in sub ₹10,000 segment, and the second fastest growing brand in the overall smartphone market in April-June 2025 period," said Tarun Pathak, research director at Counterpoint Research.

Year-on-year, it grew 156 per cent in the sub ₹10,000 segment and by 96 per cent in the overall market.

"One of the key reasons for the growth was aggressive portfolio in sub ₹20,000 segment, including the Blaze, Storm and Agni series, by bringing features like fast charging, AMOLED display at competitive price points," he said.

Market watchers say the company has, in

## CDSCO flags 8 drugs as spurious

The Central Drugs Standard Control Organisation (CDSCO) on Thursday flagged select batches of eight drugs as spurious and listed 134 other drugs and formulations as not of standard quality (NSQ) in its routine surveillance for July 2025.

While the drug regulator has not posted the list of drugs found spurious, the Union Health Ministry added that seven of the spurious drug samples were found from Bihar whereas one

sample was found in CDSCO North Zone in Ghaziabad.

A drug is generally considered spurious when it is manufactured by unauthorised manufacturers using brand names owned by other companies.

The CDSCO said that at least six batches of popular drugs manufactured by Danish drugmaker Novo Nordisk were reported stolen during transit.

# Auto firms split over GST rejig impact

Many fear buyers may defer purchases of vehicles until the GST Council gives final nod

SURAJEET DAS GUPTA  
New Delhi, 21 August

With the Group of Ministers clearing a new goods and services tax (GST) regime of 5 and 18 per cent, scrapping the 12 and 28 per cent slabs, automotive companies are split on its immediate impact. Many fear buyers may defer purchases of cars and two-wheeler until the GST Council gives final approval, which could hand them a bonanza.

Maruti Suzuki India Chairman R C Bhargava (pictured) said that GST on cars is currently 28 per cent, with a cess on larger cars pushing the total burden to 40-45 per cent. "Now with only two slabs, GST logically comes down to 18 per cent. But it's unclear if the cess will

stay for bigger cars. If removed, GST on small and large cars would be the same. At present, discounts are strong, so people are still buying despite the GST buzz. It's too early to say whether sales will really be hit by purchase deferrals," he said.

Bhargava said he hoped the GST Council would take a final decision

**MARUTI SUZUKI INDIA  
CHAIRMAN R C BHARGAVA  
SAID THAT GST ON CARS IS CURRENTLY 28 PER CENT, WITH A CESS ON LARGER CARS PUSHING THE TOTAL BURDEN TO 40-45 PER CENT**

quickly to avoid prolonged uncertainty. For Maruti, a cut from 28 per cent to 18 per cent on small cars could revive demand in a segment that has been shrinking. But experts caution that if the cess on bigger cars goes, the appeal of small cars over larger ones would diminish. Still, many believe the shift will lift overall sector volumes.

The two-wheeler industry remains divided. A senior Bajaj Auto executive said they have not noticed any sign of customers delaying

purCHASES, despite the Prime Minister's August 15 announcement of lower GST.

A rival executive disagreed: "We are seeing queries about cancellations. Unless a final decision is taken soon, August and September sales could be hit. It's logical for buyers to wait and watch."

Currently, internal combustion engine (ICE) two-wheelers above 350 cc attract 28 per cent GST, while electric vehicles face 5 per cent. With an 18 per cent cap, the hope is ICE two-wheelers too will fall to that rate. Several companies are preparing to push the industry body to urge the government not to delay until Diwali but clear the changes quickly, to avoid a September slowdown.

## Tyre companies bet big on festival season for growth

ANJALI SINGH  
Mumbai, 21 August

Tyre makers expect demand to pick up in the second half of the financial year 2026 (H2FY26), aided by festival season buying and a possible rural recovery, even as weakness continues to weigh on sales in the near term.

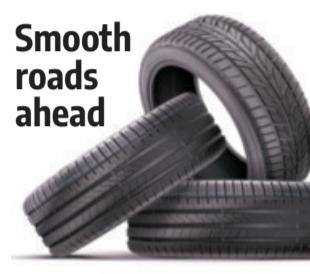

Companies remain cautiously optimistic, banking on replacement demand, urban consumption and easing raw material costs to support growth.

Apollo Tyres anticipates "a stronger top line growth" in India and Europe. "The replacement segment is likely to lead the growth domestically," Managing Director Neeraj Kanwar said in the post Q1 earnings call. Apollo believes demand momentum should improve in the latter half of FY26, supported by infrastructure and mining activity post-monsoon.

However, the company cautioned that the top line improvement in the second quarter would be largely seasonal, though it is expected to aid operating leverage and support margins.

Ceat is cautiously optimistic

## Smooth roads ahead

- Companies remain optimistic, bank on replacement demand, urban consumption
- Apollo Tyres anticipates demand momentum supported by infra and mining
- Ceat expects the festival season and rural recovery to support demand
- JK Tyre notes tractor and OEM demand had been hit by the monsoon deficit

going forward as they expect the festival season and rural recovery to support demand in the second half. Urban demand continues to be resilient while rural demand remains subdued, with hopes of a revival post-monsoon. Two-wheeler demand for the company

has been volatile and tractor sales muted due to uneven rainfall, though both segments could recover later in the year.

"Replacement demand continues to be steady and remains the main driver for us in the domestic market," Arnab Banerjee, managing director and chief executive officer of Ceat said.

JK Tyre also expects a pickup in demand in H2, with festival season tailwinds playing a crucial role.

"With the upcoming festival season coupled with the benefit of the recent repo rate cuts and favourable monsoon conditions, we expect the consumer sentiments to improve further," said Anshuman Singhania, managing director of JK Tyre.

The tyke maker highlighted weakness in rural markets due to uneven rainfall, even as urban demand continued to show resilience. It noted that tractor and OEM demand had been hit by the monsoon deficit, while replacement demand remained steady.

On the export front, companies acknowledged that global macroeconomic and geopolitical headwinds continue to pose challenges.

## Big opportunity to grow in US market: IKS Health CFO

SOHINI DAS  
Mumbai, 21 August

Rakesh Jhunjhunwala-backed IKS Health, which provides tech-enabled operational services to US healthcare organisations, sees significant opportunity in the US market as the government tries to cut down on healthcare costs.

IKS Health provides services to US healthcare organisations which include clinical documentation and medical coding to revenue cycle management and patient engagement. The platform offers a one-stop solution covering 16 distinct "chores" that physicians and hospitals currently handle.

Speaking to *Business Standard*, Nithya Balasubramanian, Group CFO at IKS Health elaborated: "Physician organisations in the US typically generate revenues to the tune of \$1.5 trillion and they spend around 15 per cent of their revenues for administrative tasks. Therefore, the total addressable market (TAM) is around \$220 billion, and since we have also entered into the acute care space, we can add another \$40 billion taking the TAM to \$260 billion."

Of this only \$40 billion has been outsourced to digital solution providers like IKS Health, thereby indicating a huge untapped market, and significant scope for growth in the US.

The total healthcare spending in the US is \$5 trillion which is growing at around 20 per cent, or faster than the GDP growth. This makes it clearly unsustainable and the US is trying to reduce healthcare costs starting with pharma prices, trying to bring in more competition.

## APPOINTMENTS

### SMALL INDUSTRIES DEVELOPMENT BANK OF INDIA (SIDBI)

Advertisement No. 01/RIMV/2202025  
Engagement of Specialists on Contractual Basis (Full Time) -2025-26

SIDBI, the Principal Financial Institution for MSME sector, invites application from eligible and suitable candidates for various posts on full time Contractual basis, as detailed below:-

Sr No	Post	Post Code	Total Vacancies	UR	EWS	Reservations	SC	ST	PwBD (OC)
1	Junior Level Officer (Operational Risk Manager)	01	01	01	-	-	-	-	01*
